Out of Sorts

THAT IS, something is wrong with baby, but we can't tell just what it is. All mothers recognize the term by the lassitude, weakness, loss of appetite, inclination to sleep, heavy breathing, and lack of interest shown by baby. These are the symptoms of sickness. It may be fever, congestion, worms, croup, diphtheria, or scarlatina. Do not lose a minute. Give the child Castoria. It will start the digestive organs into operation, open the pores of the skin, carry off the foetid matter, and drive away the threatened sickness.

Genuine Castoria always bears the signature of *Dr. J. C. Hathorn*

Familiar to Him.
 Judge Clayton of Alabama tells of a case in a court of that state in which the first witness called was an aged colored man.
 Before he was sworn the presiding magistrate directed that the usual question be put to the fellow. "Do you know the nature of an oath?"
 The old colored man shifted himself from one foot to the other before replying. A sly grin crept into his face. "Well, judge," said he, "I can't say how it wid most folks; but, yo' honah, I reckon it's sorter second nature wid me."

A Fit Companion.

A New Remedy for Kidney, Bladder and all Uric Acid Troubles

Dr. Eberle and Dr. Brathwaite as well as Dr. Simon—all distinguished Authors—agree that whatever may be the disease, the urine seldom fails in furnishing us with a clue to the principles upon which it is to be treated, and accurate knowledge concerning the nature of disease can thus be obtained. If backache, scalding urine or frequent urination bother or distress you, or if uric acid in the blood has caused rheumatism, gout or sciatica or you suspect kidney or bladder trouble just write Dr. Pierce at the Surgical Institute, Buffalo, N. Y., send a sample of urine and describe symptoms. You will receive free medical advice after Dr. Pierce's chemist has examined the urine—this will be carefully done without charge, and you will be under no obligation. Dr. Pierce

during many years of experimentation has discovered a new remedy which is thirty-seven times more powerful than lithia in removing uric acid from the system. If you are suffering from backache or the pains of rheumatism, go to your best druggist and ask for a 50 cent box of "Aurum" put up by Doctor Pierce, or send 10c for a large trial pack. THE HOTEL BAR.

"It is time we ceased to insult the American public by insisting that a hotel cannot be run without a bar." These are not the words of a prohibition fanatic but of the proprietor of a fine hotel and were spoken at the annual meeting of the Northwestern Hotel Men's association. The speaker, Mr. Leimbacher of Gardner, N. D., addressed the convention on "Prohibition an Economic Proposition," and his vigorous handling of the subject called forth great applause. "From the manager down to the bell hop," he said, "booze makes more trouble than any other one thing in our business. If the causes for eight out of every ten hotel failures were to be carefully analyzed, liquor would be found to be the rock on which the business was shattered. It is an indisputable fact that more managers lose their positions on account of booze than through any lack of real efficiency. The same may be found throughout the crew."

RUSSIA ANSWERS.

"When vodka was on sale the average savings bank deposits in Russia were in the neighborhood of from \$16,000,000 a year—a year, not a month. In the thirtieth days of January, 1915, five months after the sale of vodka was prohibited—in one month—the former vodka drinkers put \$10,000,000 into the savings banks in the empire. They saved nearly twice as much in one month as they formerly saved in a year," says Samuel G. Hixson in the Saturday Evening Post. The liquor interests of the United States are telling the people that "national prohibition would mean the loss of \$100,000,000 to the treasury of our national government," and are asking, "who will make up this revenue?" Russia has shown the way. That nation is demonstrating the soundness of the policy expressed in these words of William E. Gladstone—"Give me a sober people and I will provide the revenue."

PROHIBITION EMPTIES JAIL.

"It has surprised even the strongest advocates of prohibition to see the effect that law has had in preventing crimes and misdemeanors in Greenlee county," says the Clifton (Ariz.) Journal. "For many years the courts of this county have been clogged with a multiplicity of cases mostly resulting from booze, and the several justice courts have been kept busy sentencing prisoners to jail or fining them. For years the jails have been crowded to capacity and the fines have often run close to \$1000 in a single justice court in one month. But conditions have changed since the first of the year. The jail has been empty at some places a good share of the time; cases have been few and far between, and most of these were slight misdemeanors."

WARN COUNTRY EDITORS!

Falsehoods and misrepresentations by the press, the column, or the page graph are being sent out to the country press by the publicity department of the Liquor Dealers' association of Cincinnati, with the assurance that their desire is "a fair representation of their side of the prohibition question," and that the matter will be relied upon absolutely. Every editor should feel a personal responsibility in warning the editors of the community of the nature and source of these articles, and offer in their place to furnish some of the excellent material sent out by the publicity bureau of the National W. C. T. U.—The Union Signal.

MISSOURI DRYING UP.

More than half the people of Missouri live in territory absolutely dry. For years more than half the territory in the state has been dry, but the large city population meant that a majority of the people lived in wet territory. As the result, however, of very recent dry victories 50.2 per cent in Missouri's entire population now live in saloonless territory. Between 75 and 80 per cent of the state's territory is dry. Seventy-nine of the 114 counties are dry; nineteen dry with the exception of one town of more than 2500 population. Sixteen counties and the city of St. Louis are the only entirely wet localities in the state.

STILL ON THE JOB.

"When national constitutional prohibition has been secured won't the Woman's Christian Temperance Union be out of a job?" queried a young woman journalist of Miss Anna A. Gordon, president of the National W. C. T. U. She was assured that her organization, in common with all temperance forces, would then enter upon its most important task—that of enforcing the prohibitory law and of maintaining through education, agitation and organization the high standard of sentiment necessary for the election of law-enforcing officials.

REVENUE COULD BE SPARED.

The retail liquor dealers in New York will pay into the state treasury this year twenty-two and a half million dollars. Nobody doubts that the state could spare this sum or a greater one for an equivalent of sobriety and moral strength.—New York Evening World.

Poor Excuse.
 Thomas Mont (Osborne), warden of Sing Sing said at a luncheon in New York:

"This having of all one's crimes and transgressions at the door of heredity disgusts me. If we sin, we ourselves are to blame. To blame heredity is false and foolish."

"These heredity blamers are like the chap who said to the dun:
 "We can't escape domination of early-formed habits. In my infancy my parents hired a young nursemaid to wheel me about in a baby-coach. And ever since that distant time, alas, I have been pushed for money."
